

CAD INCIDENT DISPOSITION CODE: [ 14] [ Y] [ ] [ ]

On Oct. 22, 2008 I made contact with Mrs. Susan Blair, UF's Chief Privacy Officer, in reference to a possible security breach. Mrs. Blair stated that the incident involved a computer intrusion with a server used by the UF Dentistry Department. The server in question did contain past and present patients personal information. At this time it is unknown if any of that personal information was compromised. The Federal Bureau of Investigations was notified and will also be investigating this incident. This will be an on-going investigation.
