**On the above date and time, I was dispatched to the Privacy Office regarding a privacy issue. I met with Ms. Carol DeBose who advised that on 1/14/09 at 1300 hours, the Academic Technology Department discovered a problem in the system that involved 91,223 people. It was discovered when the department was trying to migrate from an old system to a new system. They found out that unauthorized people in Antigua and Barbuda Brazil (Islands located in the Caribbean) entered the system and exploited a security hole. The department took the machine off the network and is in the process of notifying the 91,223 people.**
